

Seed Bead & Jump Ring Single Wrap Bracelet

- 1 yard of 1mm cotton cord or size cord to fit the bead hole.
- 1 button with a hole to fit 1mm cotton cord.
- 1 vial of size 6 seed beads Japanese seed beads are easier to thread.
- 90 4mm (id) jump rings close all jump rings before starting to construct bracelet. 3x3 crimp beads.

tools: flat-nose pliers and cutters.

The bracelet in this handout fits about a 6" wrist, the suggested quantity of beads and jump rings are measured accordingly. This bracelet can easily be adjusted to fit any wrist size by adding or subtracting beads and jump rings.

- 1. Fold 1 yard of 1mm cotton cord in half and thread button to the mid point.
- 2. Thread both ends of the cord through a crimp bead and slide up to within ¼ inch of the button. Firmly flatten crimp with flat-nose pliers.

- 1. Thread 1 seed bead onto the left cord.
 - 2. Next, thread 2 jump rings over both cords.
 - 3. Then, thread 1 bead onto the right cord.

4. Continue this pattern of alternating 1 seed bead per cord / jump rings on both cords / 1 seed bead on the opposite cord until you have threaded 46 seed beads and 90 jump rings.

The bracelet in this handout fits about a 6" wrist, the suggested quantity of beads and jump rings are measured accordingly.

This bracelet can easily be adjusted to fit any wrist size by adding or subtracting beads and jump rings.

Wrap It Up:

The last bead should be on the opposite cord to the first bead. (If your first bead was on the left cord, your last should be on the right cord).

Thread both ends of the cord through a crimp bead and slide up snug against the last bead. Firmly flatten crimp.

Position the second crimp with an opening big enough to fit the button. Don't make the opening so snug that it's hard to undo the button with 1 hand $-\frac{1}{4}$ inch works great.

Thread a few beads on each tail, secure with a simple overhand knot, and then trim excess cord.

Now take a moment to marvel at your superfantastic new bracelet!
